

Conference Program

**Practical Strategies
for Your Farm**

January 29-30, 2013

Decatur Hotel & Conference Center
Decatur, Illinois

Hosted by the Soil and Water Conservation Society

945 SW Ankeny Road, Ankeny, Iowa 50023

1-800-THE-SOIL (515) 289-2331 www.swcs.org/covercrops

Be the hope.

The one with calloused hands.

The one who plants a seed.

And harvests a promise.

Be the third generation who's worked the farm.

The same farm that yields the crops.

That feed your family.

That feed the community.

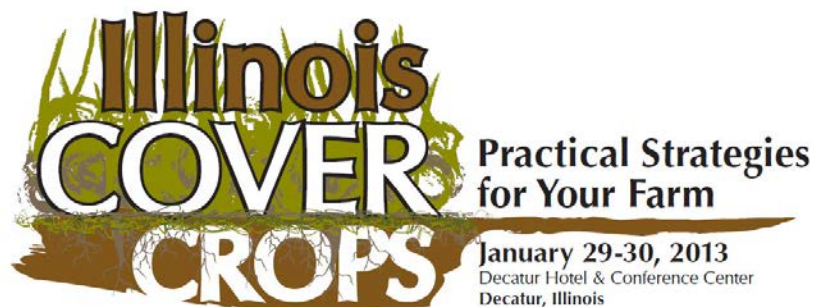

And help feed the world.

Be the seed.

Growers are vital to solving our food challenges. DuPont Pioneer is helping ensure that you always have the right product for the right acre. This is why we're committing \$10 billion to research to bring better products and services to you. Together, we are the seeds that will feed the world. Learn more at pioneer.com.

Science with service delivering success®.

AGENDA

Day 1: Tuesday, January 29, 2013

9:30 a.m.	Registration and Exhibits open	
10:00 – 11:30 a.m.	Early Bird Session: Cover Crops 101 <ul style="list-style-type: none"> • Dan Towery, Ag Conservation Solutions • Terry Taylor, Illinois farmer • Mike Plumer, Conservation Agriculture 	Fountain Hall
Noon – 1:00 p.m.	Lunch Break – Lunch on your own	—
1:00 – 1:45 p.m.	Opening Session: <p>Introductions: Jim Gulliford, Soil and Water Conservation Society</p> <p>Welcome: Daniel Sheehan, Howard G. Buffett Foundation</p> <p>Keynote: Doug Hanson, ProHarvest Seeds seed specialist, farmer, and rancher</p>	Fountain Hall
1:45 – 3:00 p.m.	Three-Farmer Panel of Successful Cover Croppers: <ul style="list-style-type: none"> • Terry Taylor, Illinois farmer • Cameron Mills, Indiana farmer • Hal Brown, Indiana farmer 	Fountain Hall
3:00 – 3:30 p.m.	Refreshment Break in Exhibit Area	Fountain Hall
3:30 – 4:15 p.m.	Cover Crop Integration Strategies for Improved Soil Function <ul style="list-style-type: none"> • Barry Fisher, Indiana Natural Resources Conservation Service 	Millikin Tate Ameren
4:15 – 5:00 p.m.	Soil Biology and Soil Quality Benefits of Cover Crops <ul style="list-style-type: none"> • Jim Hoorman, Ohio State University 	Millikin Tate Ameren
5:00 – 6:00 p.m.	Cover Crops Cocktail Reception <p>Please take this opportunity to visit with attendees and exhibitors. Light appetizers will be provided. Cash bar will be available.</p>	Fountain Hall
6:00 p.m.	Dinner and Speaker <ul style="list-style-type: none"> • Walter Lynn, Lynn & Associates and Izaak Walton League treasurer 	Fountain Hall

Day 2: Wednesday, January 30, 2013

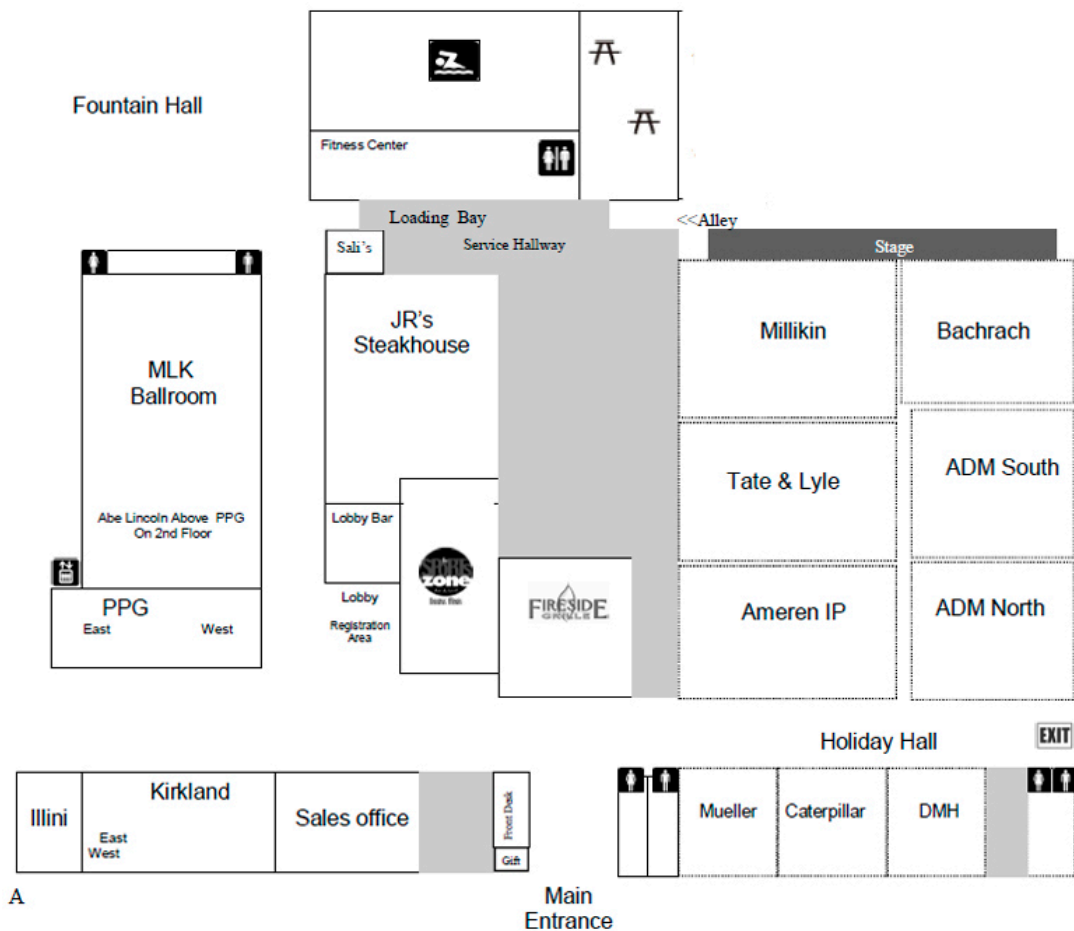

8:00 – 9:30 a.m.	Three Concurrent Sessions:	
	A. Herbicide Burndown <ul style="list-style-type: none"> Chris Kamienski, Monsanto Wayne Kizer, KB Seeds Mike Plumer, Conservation Agriculture 	Kirkland
	B. Specialty Crops and Organic Production: Vegetables, Short Season and Early Harvest Opportunities for Cover Crops <ul style="list-style-type: none"> Joel Gruver, Western Illinois University Allen Williams, Illinois organic farmer 	Mueller Cat
	C. Seeding Options <ul style="list-style-type: none"> Cameron Mills, Indiana farmer Mike Shuter, Indiana farmer Dave Stutzman, Illinois farmer Terry Taylor, Illinois farmer 	Bachrach ADM
9:30 – 10:00 a.m.	Refreshment Break in Exhibit Area	Fountain Hall
10:00 – 11:30 a.m.	Three Concurrent Sessions:	
	D. Corn and Soybeans in Northern Illinois (north of I-80) <ul style="list-style-type: none"> Paul Youngstrum, Illinois Natural Resources Conservation Service Marcus Maier, Illinois farmer Cade Bushnell, Illinois farmer 	Kirkland
	E. Corn and Soybeans in Central Illinois (between I-80 and I-70) <ul style="list-style-type: none"> Jeff Rasawehr, Center Seeds Joe Curless, Illinois farmer Kevin Burrus, Burrus Seeds 	Mueller Cat
	F. Corn and Soybeans in Southern Illinois (south of I-70) <ul style="list-style-type: none"> Jerry Seidel, Illinois farmer Ralph Upton, Jr., Illinois farmer Ron Althoff, Saddle Butte 	Bachrach ADM
11:30 – 12:45 p.m.	Lunch – Provided in Exhibit Area	Fountain Hall
1:00 – 2:30 p.m.	Three Concurrent Sessions (repeated 8 a.m. sessions):	
	G. Herbicide Burndown <ul style="list-style-type: none"> Chris Kamienski, Monsanto Wayne Kizer, KB Seeds Mike Plumer, Conservation Agriculture 	Kirkland
	H. Specialty Crops and Organic Production: Vegetables, Short Season and Early Harvest Opportunities for Cover Crops <ul style="list-style-type: none"> Joel Gruver, Western Illinois University Allen Williams, Illinois organic farmer 	Mueller Cat
	I. Seeding Options <ul style="list-style-type: none"> Cameron Mills, Indiana farmer Mike Shuter, Indiana farmer Dave Stutzman, Illinois farmer Terry Taylor, Illinois farmer 	Bachrach ADM

2:30 – 3:00 p.m.	Closing Session Speaker <ul style="list-style-type: none"> Ron Moore, farmer and Illinois Soybean Association board member 	Millikin Tate Ameren
3:00 p.m.	Door Prize Drawing	Millikin Tate Ameren
3:05 p.m.	Adjourn	

Conference Planning Committee

- Mike Baise, American Farmland Trust
- Annie Binder, Soil and Water Conservation Society
- Joseph Bybee, Illinois Department of Agriculture, Bureau of Land & Water Resources
- Daniel Davidson, Illinois Soybean Association
- Jim Gulliford, Soil and Water Conservation Society
- Alan Gulso, Illinois Department of Agriculture, Bureau of Land & Water Resources
- Dewayne Johnson, former Soil and Water Conservation Society
- Travis Martin, Cover Crop Solutions
- Mike Plumer, Conservation Agriculture
- Dan Towery, Ag Conservation Solutions
- Dan Zinkand, Dan Zinkand Communications

Decatur Hotel and Conference Center

MONSANTO

The land is my livelihood and my legacy.

I'm an American farmer. I grow more food now compared to a few decades ago...using nearly half the energy and fewer resources for every bushel produced.

List of Exhibitors

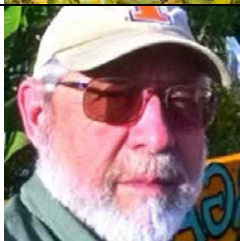

Booth	Exhibitor
5	Ameren Illinois ActOnEnergy
16	American Farmland Trust
6	Auburn University & USDA National Soil Dynamics Lab
2	Byron Seeds
17	Center Seeds
1	CISCO Seeds
14-15	Cover Crop Solutions
18	Illinois Department of Agriculture
11	JM Innovations Inc.
12-13	KB Seed Solutions
3	La Crosse Forage & Turf Seed, LLC
4	Midwest Grass & Forage
7-8	ProHarvest
10	Saddle Butte Ag Inc.
9	SARE – Sustainable Agriculture Research & Education
19	Schertz Aerial

Conference Speakers

	Ron Althoff	Ron Althoff joined Saddle Butte in 2000 to promote cover crops throughout the Midwest. Previously, he managed a farm supply co-op for 16 years. He also worked for and later managed a large regional seed company specializing in turf, forage, soy, and wheat.
	Hal Brown	Hal Brown and his son Ty raise corn and soybeans in central Indiana. They have been using cover crops for 8 years.
	Kevin Burrus	After graduating from the University of Illinois in crop sciences in 2006, Kevin Burrus started working at Burrus Seed Farms as production manager in the Arenzville, Illinois, growing location. His family and Burrus Seed staff manage roughly 3,000 acres of seed corn annually and have worked at incorporating cover crops into the seed corn cycle as an effective tool to improve the land.
	Cade Bushnell	Cade Bushnell farms 1,300 acres in northern Illinois and has been 100% no-till/strip-till since 1992. He returned to the family farm after receiving his bachelor's degree in horticulture from Iowa State University. His dad started no-tilling in the 1970s. Cade has been experimenting with cover crops for 6 years.
	Joe Curless	As a young man, Joe Curless recalls applying cereal rye on the west central Illinois family farm to manage erosion. Today their ground has eroded significantly, so Joe has utilized his degrees in agronomy and precision ag to create a system to hopefully better manage their soils through cover crops. Joe currently manages the family farm in Astoria, Illinois, and assists in their aerial application business.
	Barry Fisher	Barry Fisher serves on the Technology Staff for the Natural Resources Conservation Service in Indiana where he provides technical direction for Indiana Soil Health Strategy implementation and agronomic training and assistance to NRCS Field Offices. He also represents NRCS in the Conservation Cropping System Initiative.

	Joel Gruver	Joel Gruver is an assistant professor of soil science in the School of Agriculture at Western Illinois University. He is also the director of the WIU Organic Research Program and the WIU Cover Crop Innovator Project.
	Doug Hanson	Doug Hanson is a seed specialist for ProHarvest Seeds in Ashkum, Illinois. He and his wife Lisa have a cow-calf "MIG" operation on 80 acres of highly productive central Illinois soil. Doug works with cash crop and livestock producers to effectively utilize cover crops for agronomic benefits and as a feed source for livestock.
	Jim Hoorman	Jim Hoorman is an assistant professor with Ohio State University Extension specializing in Cover Crops and Water Quality Putnam County, Ohio. He is currently working on a PhD in environmental sciences at Ohio State University. Jim owns a 40 acre farm with his wife Marlene and son Jonathan (12) where he is conducting cover crop research trials.
	Chris Kamienski	Chris Kamienski is a weed management technology development representative for Monsanto in central and northern Illinois. His responsibilities include the development of new weed management technologies and product support. He has worked in a technical capacity in the agricultural industry for the past 10 years. He is a graduate of the University of Illinois with a bachelor's degree in crop sciences and a master's degree in weed sciences.
	Wayne Kizer	Wayne Kizer is co-owner of KB Seed Solutions and manager of his family's fourth generation farm in Harrisburg, Oregon. He produces KB Royal Annual Ryegrass, Wheat, Fescue, Orchardgrass, Meadowfoam and Nitro Radish on their 1,400 acres. They also run a custom cleaning plant which processes over 10 million pounds of grass seed and produces over 5,000 tons of cattle feed yearly.
	Walter Lynn, Jr.	Walter Lynn, Jr., from Springfield, Illinois, has a keen interest in conservation and stewardship of one of our most precious resources—soils. He brings a unique background—practicing CPA working with agricultural clients in 16 states, the current National Treasurer of the Izaak Walton League of America, central Illinois landowner, and trustee of the Sangamon Conservancy Trust.

	Marcus Maier	Marcus Maier is a fourth generation farmer from Forrest, Illinois. Marcus has been a director for the Livingston County Soil and Water Conservation District for the past 6 years and a steering committee member of the Indian Creek Watershed since its inception. He is an avid no-till soybean proponent, cover cropper, and supporter of on-farm demonstration plots.
	Cameron Mills	Cameron Mills is a farmer in Walton, Indiana. His farm has been a no-till operation since 2000, and he has used cover crops for the last six years. He is interested in working on improving soil health and the economics of cover crops.
	Ron Moore	Ron Moore, of Roseville, Illinois, is a board member and past chairman of the Illinois Soybean Association. Ron raises 600 acres of corn and 400 acres of soybeans along with 230 head of feeder cattle grazed on 250 acres of pasture. His cropping practices include conservation tillage on about half the acres and no-till on the other half.
	Mike Plumer	Mike Plumer recently retired after more than 34 years with University of Illinois Extension, ag and natural resources. Mike has been involved with the use of cover crops in no-till systems since 1980 and has conducted numerous studies on varieties, herbicides, and management.
	Jeff Rasawehr	Jeff Rasawehr is the owner of Rasawehr farms, 2,300 acres (all cover cropped) of mostly corn and soybeans around Mercer and Auglaize counties in Ohio. Jeff has farmed for 20 plus years and has been an avid student, researcher, and teacher of sustainable farming practices and ecological farming. In addition Jeff is an owner of Center Seeds and Sustain Seed companies.
	Jerry Seidel	Jerry Seidel raises no-till corn, beans, and wheat on 1,200 acres near Mt. Vernon, Illinois. He has been 100% no-till for about 20 years and has tinkered with cover crops for about 7 years.
	Daniel Sheehan	Daniel Sheehan is an agricultural research specialist at the Sequoia Farm Foundation. Sequoia operates two research farms on 3,000 acres in central Illinois and 1,200 acres in Arizona. The research farm operations are funded exclusively by the Howard G. Buffett Foundation (HGBF). Sequoia also collaborates on research with Ukulima Farm, a 9,200-acre research farm in South Africa also funded by HGBF.

	Mike Shuter	Mike Shuter is a corn, soybean, beef cattle, and hog producer from east central Indiana. Mike and his sons have been no-tilling for 30 years, strip-tilling for 10 years, and have been using variably rate technology as long as it has been available. For the last 5 years they have been researching cover crops and how to integrate them into their operation. In 2010 they started developing a machine to seed cover crops in standing corn and soybeans.
	Dave Stuzman	Dave grew up in the Arthur, Illinois, area, working in his family's custom harvesting and tillage business. For the past 7 years he has been working with Mark Freed at Freed Farms in Lexington, Illinois, where he is always looking for ways to improve soil health, profitability, and sustainability on the land they farm.
	Terry Taylor	Terry Taylor has been a continuous no-tiller for more than 20 years, using cover crops as part of his program. For the last 8 years, he has had the privilege of being a cooperator with Mike Plumer and has had the opportunity to observe his work close-up and to transfer some of the strategies developed there to his continuous no- till, continuous cover crop program.
	Dan Towery	Dan Towery operates Ag Conservation Solutions from Lafayette, Indiana, where he focuses on no-till, cover crops, and soil health. Dan is also president of the Soil and Water Conservation Society.
	Ralph Upton, Jr.	Jr. Upton has been growing cover crops on his 1,800 acre farm in southern Illinois since the mid-1980s. By working closely with Mike Plumer and others during the many years, Jr. has been very instrumental in the establishment of the fundamental parameters of cover cropping in southern Illinois.
	Allen Williams	Allen Williams is a retired accountant and currently farms in Piatt and Macon Counties in Illinois. He has farmed a conventional operation since 1972 and a certified organic operation since 1994. He has utilized cover crops since 1972.
	Paul Youngstrum	Paul Youngstrum is a resource conservationist on the area staff at Morris, Illinois. He assists NRCS staff in northeastern Illinois with the conservation planning of agronomic practices, such as nutrient management, animal waste utilization, cover crops, grazing management, no-till, prescribed burning, and more. Paul is a Certified Crop Adviser.

Attendee List

First Name	Last Name	Company	City	State
AJ	Adkins			
RJ	Alier	Coles County SWCD	Charleston	IL
Chuck	Allen		Minooka	IL
Carol	Allen			
Dalane	Allenbaugh	Coles County SWCD	Mattoon	IL

SARE: Advancing sustainable innovations to the whole of American agriculture

Use *Managing Cover Crops Profitably* to:

- Select the best cover crop species
- Plan profitable rotations that save soil and water
- Measure fertility and yield benefits
- Cut fertilizer and pest management costs

Pick up your free copy of *Managing Cover Crops Profitably* at SARE's booth.

Read farm profiles and innovative cover crop research at:

www.SARE.org/covercrops

SARE is funded by the National Institute of Food and Agriculture, U.S. Department of Agriculture.

JOURNAL OF SOIL AND WATER CONSERVATION

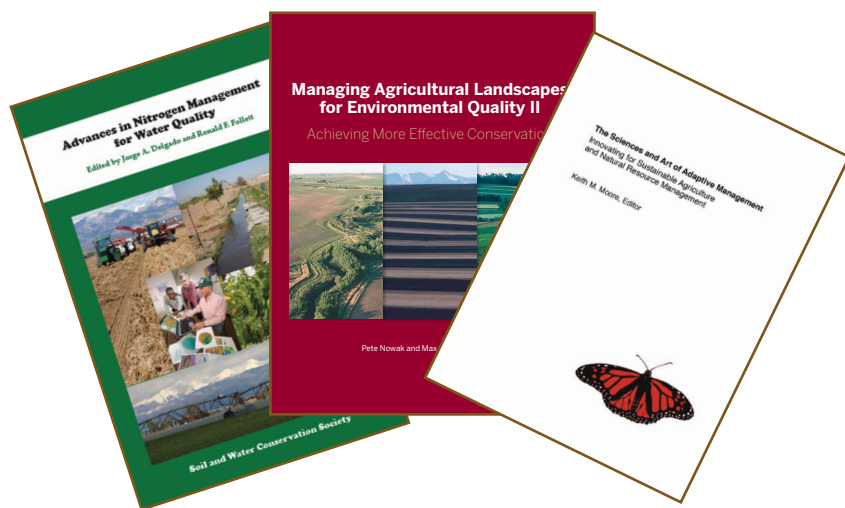

Published since 1946, the *Journal of Soil and Water Conservation* is the Society's flagship publication, with a circulation to over 5,000 individuals and libraries worldwide. The journal serves as an important international multidisciplinary forum to promote creative thinking and investigation of conservation issues.

The journal has two sections designed to engage a diverse readership: a front section containing features, perspectives, and articles on practice, and a research section containing peer-reviewed applied research papers. The online option, <http://www.jswnonline.org>, provides access to all issues back to 1981.

To subscribe to the *Journal of Soil and Water Conservation*, go to <http://www.jswnonline.org/> or call 1-800-843-7645 (1-800-THE-SOIL)

It's the taproot!

Tillage Radish® is **proven** in multi-year university testing to increase corn and soybean yields.

Consider Annual Ryegrass fixed.

- Easier control — Uniform stand
More leaf
Later maturity
- Deepest soil-building roots
- Certified genetic purity
