

SWCS, Washington, DC Chapter  
officers meeting  
Wednesday, April 7, 1999  
Room 4246

John Nordin, Lois Loser and Bill Boyer met in room 4246-S. Following is a recap.

Lois received permission from Danny Sells to use the NRCS server to house the **chapter home page**. Her son Chris Loser is looking forward to drafting our chapter homepage, but we need to get the information to him that we want him to use. We may need to schedule some time to work on this. He intends to list this volunteer experience on his résumé.

Lois attended the **Science Day** meeting yesterday. The first mailing will go out to members of all six societies on April 15. Local Universities may be included in the mailings. The program is coming together well and they are hoping to secure speakers in the next 2-3 weeks. The title/theme for Science Day, June 9, 1999, is "Enhancing Ecosystem Health – Threats and Opportunities." There may be enough money in the Science Day account to funds current activities, if not they will ask several of the sponsor organization to provide additional start up funds.

Bill will talk with the **Pocomoke Chapter** to see if we could coordinate with their Summer meeting and bring a group or bus load of WDC chapter members.

We agreed that we should send out a brief **update from the President** or officers to chapter members. This could be a brief summary of current and future activities they should be aware of.

The **next meeting** will be Wednesday, May 5, 9-10:30, in room 4246 South Ag. building.
