This book contains work first presented at the Farming with Grass conference hosted by the Soil and Water Conservation Society in Oklahoma City, Oklahoma, October 2008. The project was supported by the National Research Initiative of the USDA Cooperative State Research, Education, and Extension Service, grant number 2008-35101-19160.

The Soil and Water Conservation Society is a nonprofit scientific and professional organization that fosters the science and art of natural resource management to achieve sustainability. The society's members promote and practice an ethic that recognizes the interdependence of people and their environment.
