

Conservation Professional Services

As THE professional association for conservationists, SWCS offers conservation professional services to its members, chapters, and partners. Contact SWCS at memberservices@swcs.org to discuss your needs, costs, and funding partnership opportunities.

Some services included:

Meeting Facilitation

Make the most of your next meeting. SWCS can assist in keeping people on topic; listening carefully to what everyone is saying so no-one's points get lost; suggesting techniques for creative problem-solving; and supporting the group to address a conflict if it arises.

“Firstly, Clare was an effective facilitator. Secondly, I appreciated the head space we got to explore. Thirdly, I enjoyed hearing everyone's responses, which helped expand my vision. Fun!”

– Facilitation participant

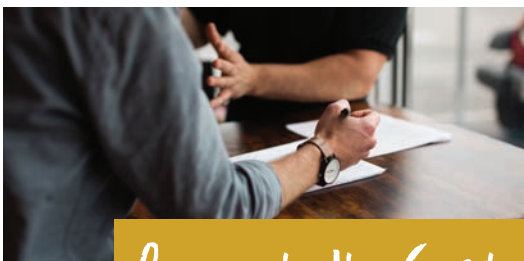

Conference Planning & Event Enhancements

Bring something special to your next conference. SWCS offers packages to enhance the experience for your attendees through interactive booths, topic themed trivia, engaging presentations, and more. SWCS can also assist in organizing your next conference.

Water themed trivia and booths enhanced this regional conference. Let SWCS help you create a space for informal networking and creative thought among the learning and dialogue at your next event.

Communication Services

Tell your conservation story with assistance from SWCS. SWCS offers video, written, and graphic productions for your organization.
