

# STARTING AN SWCS STUDENT CHAPTER

Wednesday, September 6 | 3-4 pm CT

Are you interested in starting a conservation or environmental club at your school? **Soil and Water Conservation Society student chapters** provide members with opportunities to start important conversations and make an impact on local conservation challenges on your campus. Joining or starting a student chapter is easy and leads to resume-building skills, leadership development, and connections that will support your career!

Are you already a member of a club on your campus that aligns with SWCS's goals? We now have an official affiliation program, so you can benefit from SWCS opportunities *while* maintaining your current organization.

## Options for SWCS Student Chapter Involvement

### Start or Revitalize an SWCS Student Chapter

Start or revitalize a student chapter as an official student organization through your school.

OR

### Add Official SWCS Affiliation to your Existing Student Organization

Get SWCS benefits for your current student organization by applying for affiliation.

Learn more about these options during the virtual training!  
Wednesday, September 6 (3-4 p.m. CT)

During the training, SWCS staff will review how you can benefit from being a part of SWCS through a student organization. **You do not have to be a member to join this training.** We welcome any interested students and potential academic advisors to learn more about this opportunity and review resources for the 2023-2024 academic year. These resources include:

The 2023-2024 Student Guide with a monthly activity breakdown

A governance toolkit with templates, checklists, and forms

Event planning and engagement opportunities

**REGISTER**
